Notes
 Came here to school at urging of brother Andre. He came on a student visa probably from Russia; did not come through Elias Island. He had passage over but no extra money. He was appointed by the Russian Government as a representative to the Baldwin Locomotive Co. (apparently through Andre's efforts) and received a commission on locomotives sold to Russia thus getting money for school; Story from Gert in later years. She said his birth certificate was in Russian. This timing would be about the Trans-Siberian railway which started 1891. He had a dental practice in Phila by 1896. E-2
